## StoCryl GW 200

Primer, consolidating

Characteristics	
Area of application	<ul> <li>as a priming coat for existing load-bearing existing coatings, especially chalking coatings</li> <li>for subsequent reworking with a surface protection system on concrete structures (concrete and reinforced concrete)</li> </ul>
Properties	<ul> <li>very good bond with the substrate and with subsequent intermediate coats and finishes</li> <li>very good adhesive bond with load-bearing old coatings</li> <li>very good application properties</li> <li>water-based</li> </ul>
Appearance	• transparent
Information/notes	• not suitable for surfaces subject to foot or vehicle traffic

#### Technical data

Criterion	Standard / test	Value/ Unit	Notes
	specification	7 41.41.07	
Density	EN ISO 2811	0.9 - 1.1 g/cm <sup>3</sup>	

The characteristic values stated are average values or approximate values. Due to the natural raw materials in our products, the stated values can vary slightly in the same delivery batch; this does not affect the suitability of the product for its intended use.

#### Substrate

**Requirements** Requirements on the substrate:

Concrete:

The substrate must be dry, load-bearing, and free from native and foreign release agents

Remove less strong layers and laitance.

Dry in accordance with the definition of the DAfStb (German) Repair Guideline 2001-10, but depending on the compressive strength class. Residual moisture

# StoCryl GW 200

C35/45 concrete, measured with a calcium carbide meter.
Existing coats:

Firmly adhering and load-bearing

The substrate must be dry, load-bearing, and free from native and foreign release agents. Remove weak layers and laitance.

# **Preparations**Prepare the substrate using a suitable mechanical process, such as abrasive blasting or high-pressure water blasting (> 800 bar).

Open pores and blow-holes sufficiently.

Application temperature	Lowest application temperature: +8 °C		
	Highest application temperature: +30 °C		
Material preparation	Ready-to-use		
Consumption	Type of application Approx. consump		sumption
	as a primer	0.2	l/m²
	Material consumption depends on the application, substrate, and consistency, among other factors. The stated consumption values are only to be used as a guide. If required, determine precise consumption values on the basis of the specific project.		
Coating build-up	<ol> <li>Substrate preparation</li> <li>Prime coating of StoCryl GW 200</li> <li>Coating of e.g. StoCryl V 100 / StoCry</li> </ol>	yl V 200 / StoCryl EF	
Application	1) Substrate preparation		
	<ol><li>Prime coating Apply StoCryl GW 200 on to the pre-trea the spraying method.</li></ol>	ated substrate using a roller	, paint brush o
	Consumption approx. 0.18 - 0.2 l/m²		
	<ol> <li>Coating Coating of e.g. StoCryl V 100/ StoCryl V technical data sheets.</li> </ol>	200 / StoCryl EF according	g to the
	Over-coatability: at +20°C and 65% after 12 hours		

Rev. no.: 1 / EN /StoCretec./. 22.11.2019 / PROD0593 / StoCryl GW 200

# StoCryl GW 200

Cleaning the tools	Clean with water immediately after use. Hardened material can only be remove mechanically.			
Notes, recommendations, special information, miscellaneous	General application instructions can be found at www.stocretec.de (Products) and in the latest issue of the "Technical Data Sheets" manual, in the Appendix.			
Delivery				
Packaging	Can			
	Article number	Name	Container	
	00879-002	StoCryl GW 200	20 l can	
Storage				
Storage conditions	Store in dry and frost-free conditions;. Avoid direct sunlight.			
Storage life	In the original container until (see packaging).			

Identification		
Product group	Primer	
Safety	Observe the Safety Data Sheet!	

#### Special notes

The information in this Technical Data Sheet serves to ensure the product's intended use, or its suitability for use, and is based on our findings and experience. Users are nevertheless responsible for establishing the product's suitability and use.

Applications not specifically mentioned in this Technical Data Sheet are permissible only after prior consultation. Where no approval is given, such applications are at the user's own risk. This applies in particular when the product is used in combination with other products.

When a new Technical Data Sheet is published, all previous Technical Data Sheets are no longer valid. The latest version is available on the Internet.
